EDINA VILLAGE COUNCIL

To whom it may concern:

It has been called to my attention that the Edina Village Planning Commission will in the near future consider the vacating of that portion of West 65th Street between Ryan Ave. and Parnell Ave. This street abuts my property (Lot 5-Block 13, Normandale Addition) on the south side for a distance of approximately 245 ft.

My family and I have resided on this property - Street address, 6433 Ryan Ave., since August 1933 and have some knowledge of the past condition and usage of this portion of 65th Street. This particular block of 65th Street has a very steep grade, with fine sand and clay soil, and has had no practical usage since 1936. Heavy brush, weeds and deep erosion ruts made it quite impassible to automobile traffic, and since it led to no particular point, has never been maintained by the Village of Edina. In the summer of 1960, bulldozers cleared the road for the installation of the storm sewer. When this installation was complete, the road of course was passable to automobiles, However, the clearing away of brush etc. has also hastened the erosion of the roadway. Cars and trucks which have used the road since that time have only added to the eroded condition. The village of course has not maintained this portion of street since it has never had any practical usage, and was barricaded for reason of a dangerous portion of street.

In conclusion, our property lies within "AERA -A" of the recent storm sewer assessment map sent to all property owners. With this heavy assessment of (\$.08014/ sq.ft.) already a burden, the grading and improvement of this 245 ft. of 65th Street would add even more to our highly taxed property.

For these reasons I am fully in aggreement with any proposal to vacate this portion of road.

Sincerely, Lloy E. Lundahl

RYAN 次. PARRECC Edina Village Council

Afril 10, 1967

To whom it may concern:

We the undersigned are of a definite opinion that the portion of West 65th Street, between Ryan Ave. and Parnell Ave, should be vacated and barricaded from further traffic.

This portion of road in question is very steep and dangerous: thus making it a traffic hazard.

Both construction vehicles and automobile drivers use excessive speed when traversing this portion of road above mentioned.

Now days there are many children playing around here and there, also on this road in question; where so little driving caution seems to be used. Before some one is injured or killed, we feel that it is of a very urgent and important issue that this portion of West 65th Street should be closed from further traffic.

We the undersigned own property abutting this portion of West 65th Street, and are well acquainted with the hazardous conditions and heavy maintenance problems existing in this portion of road in question.

We would appreciate a consideration of vacating the portion of West 65th Street, as above mentioned; when the approach of Virginia Ave. to West 66th Street is completed and put in service.

Respectfully:
